

# RLWS28 SHREDDER UK

## Overview

Protect your confidential and valuable information from being stolen by shredding any documents that may put your business at risk from identity fraud. The Rexel RLWS28 is a multi department shredder designed for high volume use with multiple users and has a S2 security level which shreds paper into ribbon cut particles (sized 5.8mm), ideal for everyday shredding.

The RLWS28 is a wide entry (mouth size 380mm) shredder that can shred documents in all shapes and sizes including A4, A3 and computer listing paper. Engineered for bulk shredding, it can shred up to 28 sheets of 70gsm paper in a continuous single feed as well as CD's, credit cards, paperclips and staples. Paper jams are avoided, thanks to the anti-jam function which reverses paper out of the shredder when too much is fed in. The RLWS28 features an extra large 160 litre large capacity waste bin, so you rarely have to empty it. The front opening door with pull out frame enables simple and mess free emptying and the shredder cuts off automatically when the bin is full. With a clear, easy to use LED control panel and a safety flap in the feed opening, the stylish RLWS28 is the ideal choice as a centralised shredder for multiple users who require bulk destruction of documents.

Weighing 61kg and sized at 955(H) x 615(W) x 470(D)mm, the RLWS28 comes with the extra peace of mind of a 2 year warranty, an extended 20 year warranty on the cutters plus it is compliant with finger safe international standards and is TUV and CE compliant.

## Features

- Also shreds staples, paper clips and credit cards
- Anti jam function reverses paper out of the shredder
- 160 litre waste bin for large job, 100 litre capacity
- Shreds up to 28 sheets in a single pass
